## WM. C. CHRISTIAN CALLED TO STAND IN WATER PROBE

**Gives His Story of Connection With the Service  
Board from Jan. 1, 1906, to Jan. 1, 1908...  
The Charges of Incompetency  
Against Engineer Davis.**

Sheriff William Linke was excused at 3:45 p. m. Tuesday by State Examiner Heck, his testimony taking up practically the entire day.

"We made an investigation of the standing of the American Light and Water company, from Commercial agencies, and referred us to the work that they had done. We thought it was all right. I don't know where the work was located, and don't remember that it was all west of the Mississippi river. We required a bond of \$37,000 from a bonding company on the contract for \$207,000. I know that bonding companies are hard to recover from, and that they will take advantage of every technicality to get out of losing the amount of their indenture. We thought from our sources of information that the American Light and Water company was all right.

"Did not evaluate personally any of the contract work, but the board reserved the right to either take the word of their inspectors or refuse it. I don't know as to the concrete work at the pumping station, but think the company lived up to their contract. We depended entirely upon the word of the engineer, and if he was 'crooked,' why the board was 'dummed.'

"The contract called for concrete walls four feet high, and some were made eight or ten feet high. I did not stop the work. Probably I should have done so, but we depended upon our engineer. We did not accept the boiler recommended by the engineer, but chose a Scotch Marine boiler instead of a horizontal tub boiler.

"Mr. Cline of the American Light and Water company, offered the city \$1,000 in any kind of work that the board specified in connection with the water works. If another boiler was selected, but the board told him to his contract and put in the specified boiler.

"We thought that this boiler could be more economically operated, and they were to be safely in accordance with the specifications. Don't know that the building would have had to be extended ten or twelve feet to install the tubular boiler.

"I did not know to whom the American Light and Water company let any sub-contracts for any pumps, and did not know who was to manufacture them.

"Don't know if any telegram sent by any pump company's agent, to his company, asking whether the pumps could be furnished cheaper.

"We wanted the pumps to be constructed by the most responsible company, but depended upon an inspector.

"Our selection of pumps, I thought, was the best that could be made for Newark at the time, and for some years after. Don't know that Davis got any royalty from any company. Don't think he ever beat the city in any contract entered into with him. I don't think Davis got as much then he earned from the city during the term I served.

"The work was supposed to be finished in three months after the contract was let but it was never completed further than it is now, and by resolution we reduced the number of miles of pipe in the distribution system, and our intention to build succeeding boards of service to complete the municipal plant. Of course we could not estimate the amount of extras.

"I am perfectly satisfied with the work done by the board, and my own actions while a member of the same."

William C. Christian was called by Examiner Heck in the water works investigation now in progress on Wednesday.

His testimony was substantially as follows:

"I served as a member of the Board of Public Service of Newark, with Mr. M. F. Fisher and James W. McVick, and served from January 1, 1906, to January 1, 1908. When we went into office the city was constructing a water works system, and a great number of four pipes was being along the streets, and considerable work on excavating and construction on the pumping station and the water tower. Immediately upon being inducted into office we began investigating the conditions. The concrete work at the Hamill site was under way and continued, although we requested that it cease until we could further investigate the matter. This request was made after a conference in G. C. Dougherty's office between the members of the American Light and Water company. This conference took place before the Board's investigation was completed, at which it was decided to get legal advice regarding the city's position, and Mr. Dougherty was selected.

"The request to cease work was not heeded and continued until an injunction was issued on January 15, 1908, ordered by W. J. Shields Jr. against the Board of Service and other officers of the city on the grounds of illegality of the contract. Between the 1st and 15th of January probably 200 yards of concrete were built.

"I had nothing to do with the filing of the injunction, and my first information that such a suit would be filed was from Attorney J. Howard Jones, some days before.

"I did him in this connection in that we had discovered that the suit would cost a great deal more than the money we had to pay. There was a great deal of talk about the illegality of the contract, and that the engineer was not straight, and I wanted to assure myself about these matters, if we were to go on with the construction under the contract let by the former board.

"I studied the law relating to the powers of the Service board, and was convinced that the contract was not legally given. I further found that some of the pipes were not up to specifications. I told Attorney Jones, who represented Mr. Shields, about these defects, and about January 22, after Shields had been required to give security for the costs, I felt free to secure the costs.

"Between the filing of the petition and the granting of the injunction the board received notice from Dr. Probst of the State Board of Health, to cease work on the plant under the contract, as the work was not being done in some respects in accordance with the regulations of the state board of health, in regard to water works construction.

"(Witness identified copy of letter shown him.)

"The injunction was granted the 24th or 25th of January. I knew nothing as to any solicitation that such a letter be written and first knew of it when I opened the mail. I did not request any engineers to be sent by the State Board of Health. On receipt of Dr. Probst's letter I went to his office and he informed me that it was impossible for us to go on with the work as it was proceeding without any authority from the State Board, and that he intended to put a stop to it; that no further plant was provided for and the work could not go on. I met Judge Seward in the corridor of the court house, and he asked me about the injunction. Judge Seward said that this was a different phase of the matter. I told Judge Seward that I would not like to see the suit dropped at the time, as I wanted the matter settled, and that I would become one of the parties to guarantee the costs of the suit. Messrs. Taylor and McVick of the suit, Messrs. Taylor and McVick of the suit, Messrs. Taylor and McVick of the suit, Don't remember how much the costs were, but there were ten or more attorneys.

"It was charged that our board was a bad water works board. There (Continued on Page 7, Col. 5.)

## A BATTLE ROYAL IS PROMISED

**Taft Administration to  
Withhold Patronage  
From Insurgents**

### APPOINTMENTS HELD UP

**Representative Miller First Man  
to Find Out the New Trend  
of Events.**

Washington, Jan. 3.—War without quarter will be waged between the Taft administration and such Republican "insurgents" in congress as now are opposing and will oppose in the future the Taft legislative program.

The battle is not with those tariff insurgents who quietly sheathed their blades after defeat, but with those who have nursed disappointment and are whetting their knives publicly in anticipation of continued conflict.

The substance of it is that the senators and congressmen who have taken a stand against the present administration and who continue to alienate themselves with the opposition to the president's policies are to receive no consideration in matters of patronage.

Literatures, such as that made by Senator Cummings at a recent dinner in Des Moines, by Senator Brister in previous speeches, anti-Taft articles in Senator La Follette's magazine and a recent interview by Senator Chappin on the price of foodstuffs are said to have stirred the president to action.

It had been reported further that some of the Republican insurgents in the house have tried to secure appointments under the administration, of men more or less openly out of harmony with the Taft regime.

Mr. Taft's closest friends advised him that it would be impolitic for him to afford shows of war to those who, they warned him, might even co-operate with the Democrats in congress against the Taft legislative program, and in the country at large, by creating anti-Taft sentiment in advance of the 1912 convention.

It is said, without reserve, that the president has listened to such advice and has decided to follow it.

In support of the position taken by certain leaders of the administration, the battle is not with the tariff insurgents. It was pointed out that Senators Nelson, Brown, Burkett and Borah, all of whom voted against the Payne-Aldrich tariff bill, appear to be persona grata at the office and internal revenue bureau, where federal "piles" is served.

No politician who would discuss the situation at all dared hazard an opinion as to the political outcome of the contest. Some insisted that it would prove bitter opposition to President Taft, while others declared that the effect would be to make all Republicans line up for or against the president.

## HEADS OF SIX GREAT RAILWAY SYSTEMS WHO MET IN WHITE HOUSE CONFERENCE.

Washington, Jan. 3.—The activity of the administration for a reorganization of control of interstate commerce by the government is agitating railroad men and investors all over the country as nothing else has since the first famous rate message that Roosevelt sent to congress. The heads of six great railway systems called on President Taft during the preparation of his special message and discussed the matter of interstate commerce legislation at length. The conference is said here to have been the outcome of J. Pierpont Morgan's dining visit to Washington during the holidays. The railway presidents visiting the White House represented more than 50,000 miles of roads. They were President Mellen of the New York, New Haven and Hartford railroad, President McCree of the Pennsylvania railroad, President Lovett of the Union Pacific railroad and allied Harriman lines, President Bahr of the Philadelphia and Reading railroad, President Finley of the Southern railway and President Brown of the New York, Central and Hudson River railroad. The house committee under Chairman Mann has been at work on new railway legislation since the beginning of the session. Mr. Mann has been in repeated conference with the president, though it is known that he opposes a commercial, tariff having exclusive jurisdiction over railroad matters, which the president heartily supports as the best remedy for the long drawn out litigation arising from decisions of the interstate commerce commission.

## CLAIMED SALARY IS TOO HIGH

**Representative Adair Says  
President Taft is  
Extravagant**

### OUGHT TO SAVE MONEY

**Thinks Executive Allowances  
Could be Cut \$75,000  
a Year.**

Washington, Jan. 4.—Had the president's daughter and son, Miss Helen and Robert Taft, remained in the house gallery a few minutes longer yesterday, they would have heard their father roundly criticised by Representative Adair of Indiana, for alleged extravaganzas of the executive department.

Mr. Adair said the president's salary should not have been increased to \$75,000 a year, adding that a president, "with practically no expenses, who did not save from an income of \$50,000 a year a sufficient sum to live in ease the balance of his life, in my judgment does not have sufficient business capacity to direct the affairs of this great nation."

Attacking the president's allowance of \$25,000 for vehicles, stables, etc., Mr. Adair argued that this was \$30,000 too much, and he also asserted that one-third of \$8000 for allowances for care of the White House greenhouses would "furnish the president with all the flowers he can possibly use."

Without depriving the president of any comforts or luxuries which properly belong to the White House, Mr. Adair said the appropriations of the executive department which were \$320,420 last year could be reduced at least \$75,000 per year.

Mr. Adair declared that appropriations for all purposes could be reduced at least \$100,000,000 a year without impairing any part of the government service.

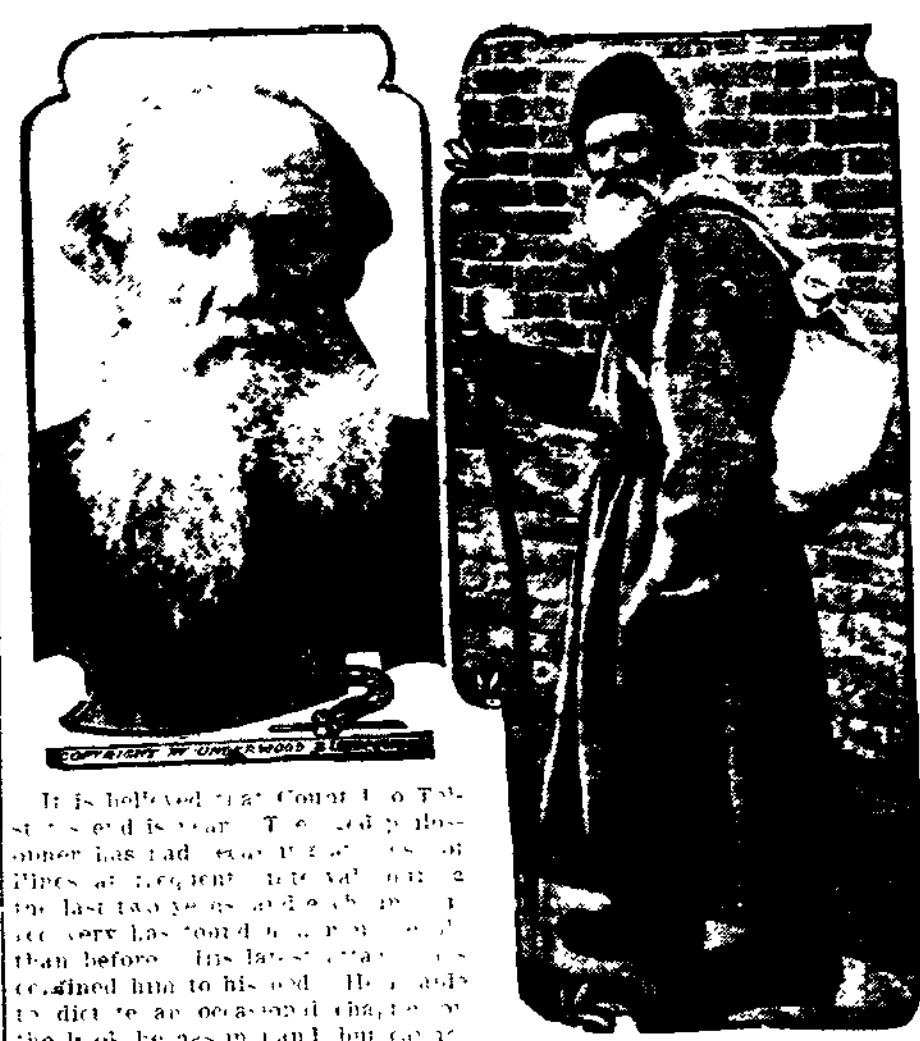

"Extravagance and waste permeate everything through the federal service," he said, and Democratic applause, "and congress has been voting away the people's money until we have reached a point where the revenues are not sufficient to meet our enormous expenditures."

Opposing the proposition to pension government employees, Mr. Adair said the department in Washington were crowded with incompetents and if they had failed to lay aside part of their earnings for a rainy day, the failure was due to no fault of the government.

Characterizing the government detective service as the "dumping ground for those who had rendered political service," Mr. Adair said that outside of the benefits derived from the work of the meat and pure food inspectors, the \$7,126,000 appropriated for that service last year had been wasted.

"There is more extravagance in the army and navy than in any other departments of our government," said Mr. Adair. "It is enough to bankrupt any government in the world to spend \$28,132,600 each year for the maintenance of its army and navy, and that too in time of peace."

## COUNT LEO TOLSTOY, P HILOSOPHER, WHOSE END SEEMS TO BE NEAR

It is believed that Count Leo Tolstoy is in his last days. The old philosopher has had a long illness of three years, and his health has been steadily declining. He is now in a frail condition, and his end seems to be near.

## GOV. HARMON

**HAS NOT EXHAUSTED ALL  
AMMUNITION AND PROMISES  
MORE IDEAS TO THE  
LEGISLATURE.**

**Effort Will Be Made to Legalize  
Sunday Baseball Throughout  
State of Ohio.**

Columbus, Jan. 3.—Governor Harmon has declared a school of legislators from that of pressing these all amendments in his message. The legislature will be called upon to consider these amendments, embodying suggestions for their submission to the constitution. The message is said to be a masterpiece of legislative wisdom, and it is expected that it will be a landmark in the history of Ohio's government.

Effort will be made to legalize Sunday baseball throughout the state of Ohio. The governor has announced that he will introduce a bill to this effect, and he has promised to continue to work for the legalization of Sunday baseball throughout the state.

## GREAT BLIZZARD STILL RAGING THROUGHOUT WEST

Minneapolis, Jan. 4.—Reports from the northwest today give no signs of a let-up in the blizzard which is raging throughout Minnesota, Montana, Wisconsin and the Dakotas. A cold wave averaging from eighteen to thirty degrees below zero is trailing the blizzard. Two deaths of men caught in the storm which has now lasted on twenty hours have been reported, and there have been numerous cases of frost bites and frozen limbs, some serious.

Notwithstanding reports to the contrary there is not yet a scarcity of provisions and fuel. It is feared, however, that cattle on the ranges west of the Mississippi will suffer greatly.

The storm is the worst reported since 1888, and few trains are moving in the Dakotas.

Indiana railroad between the Rapids and Muncie, re-installed in the great drifts of snow piled up by the blizzard that has raged almost continually in this part of the state for two days. Two big snow plows are trying to dig them out. The passengers are suffering discomfort through short rations, and careful handling of the locomotive coal.

## WILL CLOSE COPPER MINES

Butte, Mont., Jan. 3.—It is stated here on high authority today that all the mines owned by the Americanized Copper company and its subsidiary companies will be closed down indefinitely as the result of the action of the Butte Mayor, Union in refusing to assist the railroad in bringing the ore to the Northwestern switch point.

## WHAT IS IT?

## WRECK ON PITTSBURG DIVISION OF B. & O.

Washington, Jan. 3.—Two passenger trains, one of which was the result of a collision between two passenger trains and a freight train on the Baltimore and Ohio railroad at West Alexander, Md. Twelve miles east of New York City. The dead and injured are being taken to a hospital.

## TRAINS STALLED IN THE SNOW

## SWITCHMEN

**At Chicago Have Agreed to Arbitration and There Will Be No Strike.**

Chicago, Jan. 3.—C. L. Dickerson, spokesman of the railroad general managers' committee, this afternoon announced that the conference between the Chicago switchmen and the railroad general managers' committee had terminated today and that all matters in dispute would be arbitrated under the Erdman act. Dickerson declared the switchmen's representative had offered arbitration and the railroad accepted.

## GAME WARDEN ARRESTED ON SERIOUS CHARGE

The body of Albert Weathers, sworn game warden, was taken to the hospital on Monday morning and was pronounced dead. Weathers was arrested on a charge of shooting a deer in violation of the law. He was brought before Justice Horton, who gave bond for his appearance on Monday, December 10.

Weathers in his Waldweben and other woodland music has doubtfully followed the beautiful music of the little German crickets.

## NEW COUNCIL ASSUMES OFFICE AT GRANVILLE

Granville, Jan. 3.—The first regular meeting of the new council of the village was held in the Council chamber Tuesday night, and when Mayor Judson Evans called the roll all the members were present. The members were as follows: Mayor J. D. Barnes, president; M. P. Ashbrook, F. L. Ferguson, J. M. Jones, John Thomas, S. Partridge and W. A. Rusler.

The reading of the minutes of the preceding meeting were read by Evans and duly approved.

Reports of the treasurer, clerk and sinking fund trustees were read, and approved and placed on file. Messrs. J. M. Jones, H. S. Partridge and John Thomas, new members of the council, and Edward Evans, new clerk of the village, were duly sworn into office by Mayor Barnes.

The bonds of the recently elected officers were then read by the clerk and accepted as follows:

Dr. E. J. Barnes, Mayor, \$500; John Evans, Clerk, \$500; John Thomas, Treasurer, \$500; Edward Evans, Sinking Fund Trustee, \$500; J. M. Jones, H. S. Partridge, J. D. Barnes, Board of Sinking Fund Trustees, \$500; Judson Evans, member board sinking fund trustees, \$500.

Mayor Barnes then announced the following standing committees for the year:

Law and Order—M. P. Ashbrook, F. L. Ferguson and John Thomas.

Finance Committee—J. M. Jones, M. P. Ashbrook and W. A. Rusler.

Street Committee—John Thomas, H. S. Partridge and W. A. Rusler.

Light and Water Committee—J. M. Jones, H. S. Partridge and John Thomas.

Police—J. M. Jones, W. A. Rusler, and H. S. Partridge.

Fire Committee—M. P. Ashbrook, H. S. Partridge and F. L. Ferguson.

Jury Committee—M. P. Ashbrook, W. A. Rusler and F. L. Ferguson.

Public Safety—John Thomas, J. M. Graham and Warner Pond.

The following appointments were confirmed:

Street Commissioner—S. Humes.

Chief of Fire Department—A. A. Smoots.

Janitor for Municipal Building—E. A. Smoots.

Mr. Alfred Lee, one of the visiting councilmen, on behalf of the Granville Band, asked the use of a room in the municipal building for the band, one or two nights out of the week, with a privilege was granted. The band is considered a part of the town, and there is nothing too good for it.

A communication from Dr. C. O. Probst, secretary of the State Board of Health, regarding the appointment of a health officer, was read by the clerk and was received and entered on file.

Just at this point in the proceedings Mayor Barnes arose to his feet and said that during the rush of business one very important matter had slipped his mind, and that was in reference to a badge for the new town marshal, Mr. Edward Evans. He said that a number of his friends had secured a badge for him and that he, as chairman, Thomas would present it. Mr. Thomas arose and presented a few appropriate words to Mr. Evans with a large tin star about the size of an ordinary saucer, which he pinned on the manly breast of the guardian of law and order in the village. Mr. Evans, although surprised, responded good naturedly.

The pay roll ordinance was passed under a suspension of the rules.

The mayor appointed a committee, consisting of Messrs. Ashbrook, Thomas and Rusler, to investigate matter of number the houses of the village and report at the next meeting.

John Howland was reappointed to care for the town clock, and John Weston was appointed to take care of waste paper of the village at an increased salary.

Mayor Barnes then delivered a short address to the members of the council, in which he asked the cooperation of all in his work to make the village one of the best small towns in the state. He counseled harmony and unanimity of action, as far as possible, in all the deliberations of the council.

During the past year the village

often the kidneys are

weakened by over-work.

Unhealthy kidneys make impure blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering.

Therefore, if kidney trouble is permitted to continue, serious results are most likely to follow.

Your kidneys are most likely to become weak and unhealthy if you neglect to keep them in good condition.

They do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fall to its duty.

If you are sick or feel badly, begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases.

If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle

by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

## SUCCEEDS O. G. MURRAY AS PRESIDENT

Daniel Willard of the Chicago, Burlington and Quincy, now at Head of B. & O. System.

Baltimore, Jan. 3.—Mr. Daniel Willard, who today accepted presidency of the Baltimore and Ohio Railroad company in succession to Mr. Oscar G. Murray, who has become chairman of the board, which position was created in special recognition of his services during his presidency of the first vice-presidency and presidency the past fourteen years.

The action in both instances was at a meeting of the Board of Directors held at the company's offices in New York. Mr. Willard comes to the B. and O. from the Chicago, Burlington and Quincy Railroad, where as second vice president he has been at the helm of operation since 1901. He was formerly a Baltimore and Ohio official, having been general manager from 1890 to 1901, and at the time of his leaving, being general manager. His election to the head of operation of the B. and O. was made effective January 15.

Mr. Murray's resignation took effect on the 14th. Mr. George F. Randolph, president of the B. and O., has been elected to fill such vacancy.

### Suffered Seven Years.

**Agency of Rheumatism Overcome by Rheuma, and Evans' Drug Store Guarantees It.**  
Buffalo, July 19, 1909: "For seven years before taking Rheuma I suffered greatly with Rheumatism in my hip and at night was scarcely able to lie down to sleep. Less than one bottle of Rheuma cured me and I believe this the best remedy known for Rheumatism." Mrs. Alice A. Brown, 35 Kane Street.  
Rheuma will drive the uric acid from your system; will renovate the kidneys and put new energy into them.

Already the news of the cures Rheuma has made has spread the country over, and Rheumatic victims in Newark will appreciate the enterprise of Evans' Drug Store in securing such a truly great prescription. Rheuma relieves Rheumatism so quickly that it gains the confidence of the patient in a few days. Evans' Drug Store thinks so well of it that they sell it on the no-cure-no-pay plan, and on that basis every Rheumatic sufferer in Newark ought to ask for Rheuma. The price is only 50c a bottle. Mail orders filled. Rheuma Co., 1000 West Ave., Buffalo, N. Y.

## WOMANLY WISDOM

The young wife: This rabbit (sob) I've been plucking it (sob) all the afternoon, and it isn't half done yet. Grind up the meat that is left over, stir it up with potatoes and make croquettes for supper. Nice as can be. Some girls would be successful in obtaining a husband if they would remove the hatpin before setting their caps.

Never wash flannels in water in which cotton clothing has been washed as there is lint always left in the water that "fills" the flannel.

When making boys' pants, if mothers will put in a large piece of the same material in the knees between the lining and outside, it will be there ready when needed.

It isn't safe to buy eye-glasses of peddlers. If your eyes need glasses, to a reputable oculist or optician in some near-by town or city. Economy is false wisdom when it comes to eye troubles.

Boots, music and good lights may not increase the corn crop, but they wonderfully increase the heart crop; and that is worth a good deal more when it comes to keeping the boys and girls on the farm.

If your oven does not bake, don't get mad about it and think that the stove is a nuisance. Just clean out the top and bottom of the stove. You will be surprised at the amount of soot you will get and how much better the stove will bake.

It is heavy work to carry up a full scuttle of coal, but if a grape basket is kept at the head of the cellar stairs, and if each time a trip is made to the cellar it is filled and brought up, the scuttle may be kept supplied. Even the children can help do this.

A week filled up with selfishness and a Sabbath stuffed full of religious exercises will make a good Pharisee but a poor Christian. There are many persons who think Sunday is a sponge with which to wipe out the sins of the week.

It is natural for children to like candy; and good candy is wholesome for them taken at the proper time, which is not between meals. A good plan is to serve it for dessert several times a week; a few pieces are enough for each child. Used in this way it is not extravagant, as it saves the making of other desserts.

Stops itching instantly. Cures eczema, salt rheum, itchy skin, freckles, scabies, dandruff, etc. Sold at any drug store.

## REV. G. W. WARD ACCEPTS CALL FROM NEWARK

Will Become Pastor of Central Church of Christ January 9th. Holmes County Man.

Rev. Walter D. Ward, of Rockford, Ill., has accepted a call to the ministry of the Central Church of Christ of this city, and expects to take up his work with this church January 9, 1910. Mr. Ward is married and has two children a boy, six and one-half and a girl two and one-half years old. He was born in Holmes county, Ohio, about 35 years ago.

REV. G. W. WARD.  
and spent most of his boyhood days in Tuscarawas county, where his parents now reside. He taught school for six years, attending the Normal University at Ada, Ohio, between terms. He graduated from the Normal University in 1905, and immediately entered Hiram College, graduating in the spring of 1909.

Rev. Mr. Ward preached during his senior year in Hiram and for one year thereafter at Mount Station, O. He has accepted a call to the Central Church of Christ, where he remained for six years, then he removed to Rockford, where he became pastor of the Central Christian church of that place. While at Mr. Ward can preach a full post-graduate course in the University of Chicago Divinity School, receiving the degree of B. D. in June, 1907.

Mr. Ward comes with the highest commendations from the brotherhood; he is large physically, and is a strong, conscientious and devoted student. He is a fluent speaker, has a cheerful disposition, and a splendid personality. He will be able to accomplish much for Christ in Newark and be a valuable member to add to the Newark ministry. Rev. Mr. Scholes expects to remove to Bellair this week.

## ONE AS BAD AS T'OTHER

Revised figures showing the vote of each senator on tariff revision, compiled by Mark Sullivan for Collier's, are being distributed. It was Collier's which first stated that Burton voted with Aldrich 99 out of 114 times.

The revised figures show that there were 129 votes in the senate on tariff revision, including votes on some incidental questions omitted from the former reckoning.

Out of these 129 ballots Burton voted with Aldrich 114 times, voted against Aldrich 14 times and failed to vote once. Dick voted with Aldrich 123 times, against Aldrich 4 times and failed to vote twice.

After all the difference between the records of the two Ohio senators is merely a matter of figures, the margin being so close either way as leave unaltered the fact that Burton is no better than Dick and Dick no worse than Burton.

## SEE THE DIFFERENCE?

If the situation were reversed, and a Republican governor were probing scandals in the records of Democratic officials, the shouting and shrieking and screaming of p. o. p. clackers to "down the grafters" would drown out the noise of all the boiler shops in the state. They would want every lamp post in Columbus decorated with Democratic "fascals," "scoundrels" and "thieves." There would be an awful yelp about "Democratic dishonesty." There would be tearful appeals to patriotism and public spirit "regardless of politics" to clear the fair name of the Buckeye State and clean the besmirched escutcheon of Ohio.

You see anything of the kind in Republican papers now? In a few, a very few, but in the most of them you will find sneering remarks about "playing politics" and the like.

To such stout defenders of the p. o. p. it is always "playing politics" to try to get at the facts about any p. o. p. public official.

So far the public conscience appears to be several laps ahead of the partisan scruples of the ordinary p. o. p. clacker, and a Democratic governor is pointing the way.

## FOOLING HIMSELF.

That's a great game President Taft is trying to play, as revealed by the advice of Speaker Mooney to the Republican majority of the legislature. The essence of it is that the Republicans must not openly oppose reforms advocated by Governor Harmon, but work them out in a different way and claim all the credit for them. The president evidently puts a low estimate on the intelligence of the people of his own state. In trying to fool them Mr. Taft is only fooling himself. The note he meddles in Ohio politics the better it will be for the Democrats.

## ACTUAL STARVATION

The R. M. Hyde Drug Co. Give Facts Regarding Dyspepsia.

Although indigestion and dyspepsia are so prevalent, most people do not thoroughly understand their cause and how to obtain relief. There is no person why people should not eat anything they desire—if they will only chew it carefully and thoroughly. Many actually starve themselves into sickness through fear of eating every good-looking, good-smelling and good-tasting food, because it does not agree with them.

Dieting cannot cure dyspepsia. If we refuse every article of food that disagrees with us, before long we have nothing left, and find ourselves chronic dyspeptics.

We are so confident that we can furnish relief for indigestion and dyspepsia that we promise to supply the medicine free of all cost to every one who uses it according to directions who is not perfectly satisfied with the results. We exact no promises and put no one under any obligation what-ever. Surely nothing could be fairer. We are located right here where you live, and our reputation should be sufficient assurance of the genuineness of our offer.

We want every one who is troubled with indigestion or dyspepsia in any form to come to our store and get a box of Rexall Dyspepsia Tablets. Take them home, and give them a reasonable trial, according to directions. They are very pleasant to take; they soothe the irritable stomach, strengthen and invigorate the digestive organs, promote a healthy and natural bowel action, almost immediately relieve nausea and stomach irritation, produce healthy digestion and assimilation, and promote nutrition.

A 25-cent package of Rexall Dyspepsia Tablets furnishes 15 days' treatment. In ordinary cases this is sufficient to produce complete relief. In more chronic cases, a longer treatment of course, is necessary, and depends upon the severity of the trouble. For such cases we have two larger sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Newark only at our store—The Rexall Store, Hall's Drug Store, 10 N. Side Square.

## WILL PAVE THE STREETS

Crooksville, O., Jan. 3.—Great things are expected under the administration of Mayor E. E. Brannan and the new council, and a big boom is anticipated in business of all kinds. At a meeting of the council arrangements were made to advertise for bids to pave State street three-quarters of a mile long. The work is to cost between \$25,000 and \$30,000. The old council wrestled with this question on several occasions, but nothing definite was ever accomplished.

## IX.—The Friends That Stick

"BUT you see, papa," protested young Mrs. Rollins, "we've got to keep up appearances. I don't think people are like they were when you were young. You must make a show nowadays if you're going to stay in society. As Will says, if we don't trail along with the procession we'll get left at the post. I'm not sure that that's exactly the way he put it, but I know he means that if we don't do as our friends do we wouldn't have any friends."

"Oh, huh," granted the colonel. "It's a sort of an up to date version of the Golden Rule—spurge for others if you want others to spurge for you. I've got no particular quarrel with that if you can afford it. It helps to make business good. But I don't think you can afford it. Moreover, it don't make friends and it don't keep friends. Moreover, again, there ain't a bit of difference between the world now and when I was a boy, or when Julius Caesar was a boy, for that matter. It's always been that way, and I reckon it always will be that way. It's been a

"WOULDN'T TAKE THE TROUBLE."

continuous procession from Adam's time down, and there's always been a lot of people fallin' over one another tryin' to keep the head of it in sight. "But there's a whole lot more, a great many more, now as well as then, who don't care a continental rap about keepin' up with the procession; most of 'em don't even know that there is a procession, and if they did they wouldn't take the trouble to go to the window to see it pass by, much less trail on behind the band wagon, for honestly now, honey, what's the use? Does the procession ever get anywhere or do anything? Not on your life. It just prances around in a circle and blows its horn. It puts on a lot of style, to be sure, and it looks mighty gay with its ribbons and its feathers a-yin', but the people that's on the outside watchin' it get more entertained out of it than the ones takin' part in it."

"But what else are we to do, papa?" interrupted his daughter. "You don't want us to stay at home all the time and wear our old clothes, do you?" "No, sirree, little girl, and you know I don't. I want you to wear just as pretty dresses as you can afford and have all the fun that's comin' to you, but don't do things you've got no business to do just because other people do them, and don't imagine that you'll lose any friends if the procession gets away from you. Maybe some of the people you call your friends would get something out of the matter with their eyes when you came along the street if you didn't put on as much style as they did, but that kind of cattle ain't no use. There's nothin' finer or sweeter in the world than a good friend, and the man or the woman that hasn't got real friends is mighty unfortunate, but you can't get 'em and you can't keep 'em by makin' a show, as you call it. Just try it by your own standard, for instance. Take the women that you like the best. Why do you like them? Is it because they wear fine clothes or live in big

NOT GOOD FOR FRIENDS.

houses or give swell parties that you like them? No; you bet it ain't. It's because there's somethin' within them that's better than any show they could make if they had millions. And don't you suppose the same women love you for the same reason? Don't you suppose it's your character and not your dress that draws them to you? I'm mighty sure it is, and I'm also mighty sure that they'd keep on lovin' you no matter whether you had your gowns made in Paris or by the little dressmaker around the corner. If they didn't, why, they wouldn't be friends. That's all there is to that.

They'd just be make-believe, and if you lost 'em you wouldn't lose anything worth givin' about.

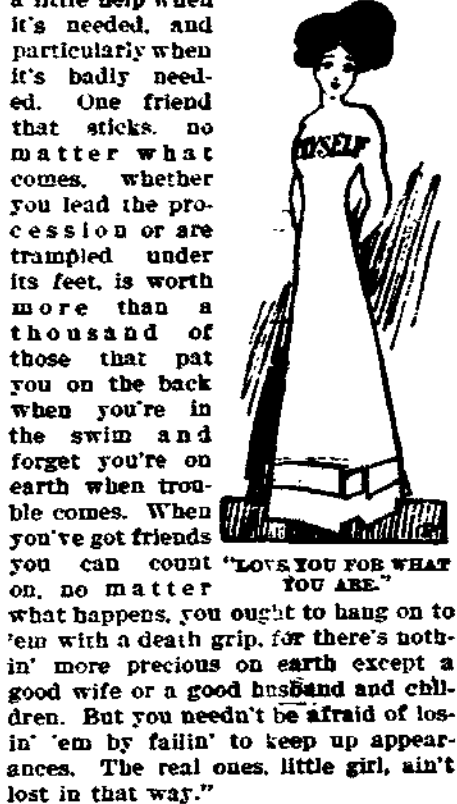

"What I'm tryin' to get into your pretty little noggin—and, by the way, honey, I like that new way of axin' your hair; it's mighty becomin'—but, as I was about to remark, the point I'm tryin' to get you to see is that fine feathers don't make fine friends, and you'll make a mighty big mistake if you think the only friends worth havin' are the ones that wear the gayest

MILLIONS CAN'T BUY.

"You can't have too many friends, my dear, but you've got to depend upon somethin' besides appearance to get them and to keep them. The friends that stick are the ones that love you for what you are, not for what you wear, and you'll find material for friends of that kind among the high and the low, the rich and the poor. Some of the best friends I've got don't know where the next dollar's to come from, and some of the others don't know what to do with their money, but they're all in the same boat in the matter of friendship, and any one of them would go through fire and water for me. I know, because I've tried them."

"But you can't make friends without doin' somethin' or bein' somethin' worthy of friendship, and you can't keep friends unless you give as much as you take—not in money, understand, but in friendly words and friendly deeds, in a little sympathy or

Mind's Mastery Over Matter.

Striking instances of the mastery of mind over matter are seen almost every day in dining cars. Not only are they seen, but they are experienced. Frequently I go into a diner thinking: "Well, I'm feeling pretty tolerably punk. I tell you. I'm fairly puny this morning. Maybe I can worry down as much as a little bit of buttered toast and two soft boiled eggs."

I think this because I have been counting on an la carte breakfast. But when I get into the car and sit down at the table I observe that the meal is table d'hôte—well! That's different. I'm feeling better, thanks. That cantaloupe sounds good, also the breakfast food. Salt mackerel doesn't listen so bad to a man who hasn't had a single morsel of food between supper and breakfast. What's the matter with that sirloin, with a couple of rashers of bacon, a cheese omelet, some French fried potatoes, a few more of those hot rolls, please, and some wheat cakes with maple sirup and a pot of coffee?

Yes, that's the way it works—the whole program from soup to nuts, and you don't feel particularly well fed even then.

Then sometimes it works out in the following manner:

(Before you have investigated.)  
Come, feed with me, gentle friend.  
While the covered dishes fly  
Let's seek the car at order end  
Of the choo-choos, y and I  
We'll down the dough in a bean.  
We'll worry the Bos for only a paltry bit.  
Oh, shame on the m. t of cheer.  
Come, take with me a set heart.  
Thou loved of my in-est heart.  
For the dining car, I'm dear.

And the service is a carte.

(After investigation.)  
Nay, not today, my tried friend.  
For my tummy hurt me so.  
The food van's on the railroad trains  
'Tis quite too far to go.  
The things they serve  
Are never the food I need.  
I dare not take a car on pains  
With viands too rich and fine  
Let's fast and be of me.  
No, I'll surely play it safe.  
Though the dining car goal is in the rear.  
My dear  
The service is table d'hôte.  
I note.  
The service is table d'hôte.

It All Depends.  
"Not much of the pace that kills about this slow town, there?"  
"Yes; the pace that would kill a nervous person who had to stay here."

## WHITE HOUSE RECEPTIONS.

A Whole Flock of Them Before Lent.

## WASHINGTON SOCIAL SEASON.

Talking and Eating the Chief Industries of the Capital—Taft Will Take an Active Part in the Congressional Elections—The Lee Statue a Question of Uniform.

Washington, Jan. 3.—Presidential receptions are coming along in a bunch. Outside of the regular New Year's reception there was one to the diplomatic corps on Jan. 4, which will be followed by the judicial reception two weeks later, the congressional reception on Feb. 1 and the army and navy reception Feb. 8. Scattered in between will be diplomatic dinners, supreme court dinners and plain and fancy banquets in such profusion that they would delight the eye and palate of old Epicurus himself. Whatever may be said about the deliberate way Washington goes about other things, socially it is a busy city. Just now the thing that disturbs the fair hostesses of the capital is not the woman question, but the man question. One would suppose that with all the male statesmen who foregather here there would be plenty to dance and lead the ladies out to dinner; but, whether it is that the men are busy playing poker or trying to devise ways to keep from passing bills, it is a perplexing fact that it is not always easy to find enough men to go around. To add to the difficulty about fifty new society buds have blossomed out this winter or are in process of doing so, which calls for just that many more masculine partners. It is a pity that the male beauty squad of the Taft inauguration could not have been induced to remain here permanently.

## The Prime Requisite.

As Lent begins this year on Feb. 25, the social season has been hastened and squeezed up into a few weeks. This has necessitated the rushing of cabinet dinners at the rate of one a week, beginning with that of the secretary of state now due. I do not know that Washington social affairs are intensely interesting to the remainder of the country, but it ought to afford some satisfaction to the people to know that their representatives, senators and other officials get enough to eat, even if food prices are doing the aeroplane act for the rest of us. It used to be supposed that the nation's brainiest men should be the ones sent here, but I am not sure that the view is correct or that it is any longer followed. So far as I can judge the two most important activities of Washington life are eating and talking, and as both are performed through the facial orifice it would seem that the prime requisite in those sentenced to terms of service here is not brains, but mouth. Nor am I prepared to say that of late years this has not been the rule observed.

## Taft and the Younger Adams.

Some ingenious student has discovered a similarity between the careers and attitudes of John Quincy Adams and William Howard Taft. Both the sons of noted fathers and distinguished in their own rights, both aware of making political appointments, both refusing to play politics to further their own fortunes and both despite their excellent qualities failing to stir the hearts of the multitude, the parallel does not seem entirely fanciful. Will the likeness be carried out to the end of their careers? Even the weather prophets would hardly dare to offer a forecast. Besides, it is too early in the Taft administration to size it up.

## Will Taft Manage the Campaign?

Now that 1912 is on the boards, members of both houses are awakening to the fact that a congressional election is on this year. The Democrats are more confident of carrying the next house than they have been in a decade. For one thing they argue that no party ever revised the tariff that it was not snarled under in the next congressional election with the single exception of 1868, when the Spanish war came on to distract the people's attention. One uncertain element in the coming fight will be the insurgent Republicans. I am inclined to believe that this element, however, will fight out its battles within the party and that whatever division exists in the majority will help the Democrats little in the election. The latest rumor of interest is that President Taft will take a very active part in the fight, naturally regarding the result in the light of a verdict on his own administration.

## Merely a Question of Clothes.

The statue of Robert E. Lee in the uniform of a Confederate general, which was placed by the state of Virginia in statutory hall, has created embarrassment in official quarters owing to the criticism leveled at it from certain portions of the north. These objections have not been aimed at Lee, but at his uniform. Now, outside of eating and talking Washington is perhaps most expert in the matter of clothes, so that this sort of sartorial question is right in its line. However, it has not been felt to meet the issue as yet but has settled the matter by sidestepping it—that is, congress will permit the statue to remain in place, but will not formally accept it.

## OHIO STATE WILL ORGANIZE NEXT MONDAY

The affairs of the Ohio State League and its prospects for the coming season will be thoroughly thrashed out at the Neil house, Columbus, next Monday. The affairs of the league are in a rather chaotic condition and an effort will be made to bring order out of the ruin.

Chillicothe is still anxious to break into the baseball game, and C. W. Corcoran, who operates a fruit farm near the Ohio county capital, is said to be willing to bear the brunt of the financial burden. Mr. Corcoran is said to even have gone so far as to sign some youngsters for a tryout in the new park which he has purchased. Business men are said to be willing to assist in financing the project.

Sandusky is also much talked of as a good ball town, and she may be given a chance to show what can be done in a baseball way there. The fact that it is adjacent to Cedar Point and other resorts and would probably get a good crowd for the Sunday games, seems to warrant consideration for the lake city. If that city should get in the O. S. league the teams would burn up a lot of mileage in getting from there to Portsmouth.

The people of Cambridge are anxious to be found on the baseball map and they will have a representative at the meeting of the league directors to press her claims for membership. It is said that the business men of the city have organized to push the project so that they will land one of the berths left open by the blowing up of Newark and Lancaster last season.

Marion, Mansfield and Lima are said to be ready to take up things where they left off last year even though the season in each of the cities mentioned was bad. But financial conditions were such all over the state last year that no shame is cast on the failure of the game to be a long proposition in these towns.

Portsmouth is a sure enough go from the start and it now remains for the league managers to find two cities to take the place of Newark and Lancaster, and if possible add two more and make an eight club circuit out of it.

The Ohio State Journal says this morning:

"Newark can have baseball next season produced by people of her own choice. Gentlemen of that city, in keeping with the league's policy, will be given the right of way at operating the club. If they do not wish to do so and sign a willing owner, it is for ownership, it will be provided. At least three people, who are in the baseball business, are ready to take hold of the Newark proposition."

Newark may not have baseball this coming season for there has been some opposition to the Ohio State league, but the fact remains that unless we land a berth in this league we probably will be without the sport.

Conditions are more favorable for the sport here now than they have been for the past two years, and with a good team some owner would seem to be the most feasible plan for the owner would have to supply a good team if he expected patronage and as he would want a money maker it would be up to him to put in a classy bunch of ball tossers.

## EVERYONE NEEDS IT.

W. A. Erman & Son Are Having a Wonderful Sale of Thompson's Barosma, the Mighty Kidney and Liver Specific.

And no wonder, when they offer to refund your money if it doesn't cure any disease of the kidneys, liver or bladder, back ache, side ache, nervousness, or any weakness of the kidneys.

Thompson's Barosma has made so many almost miraculous cures that W. A. Erman & Son are pretty certain not to have any returns.

Here are a few instances:

Frank K. Sturges, Sturtevant, Crawford, Co., Pa., was cured of Bright's disease six years ago, and only took 6 bottles. He has had no bad symptoms since.

"I had kidney trouble and enlargement of the liver and spleen. I took Thompson's Barosma. The first bottle reduced the measurement around my stomach from 45 to 36 inches, and several bottles completely cured me."—M. S. Langford, Tyroneville, Pa.

Mrs. Fred Lobelintz, of Titusville, Pa., writes that her four-year old son was permanently cured of chronic bad wetting with 3 bottles of Thompson's Barosma.

Orson Hopkins, of Townville, Pa., was refused life insurance because of kidney complaint, and told that he would not live many months. Five bottles cured him, as it has cured thousands before him and thousands since.

After suffering the terrible agony of rheumatism for 10 years, being compelled to use crutches, J. N. Dunn, Troy Center, Pa., after all hope had left him and he had no faith in any remedy, took 6 bottles of Thompson's Barosma, threw away his crutches, and went to work for the first time in 10 years.

These statements are absolutely true, and the Thompson Medical Co., Titusville, Pa., will prove it. Then why should anyone suffer in the face of such facts. How can they suffer when W. A. Erman & Son guarantee to refund the money if a cure is not effected. Thompson's Barosma, 50 cents and \$1.00 a bottle.

Mr. and Mrs. Tod Franks visited at Homer Sunday at the home of Mr. Clyde Landersburg, who is ill of scarlet fever.

Rev. E. J. Converse was entertained over Sunday by Mr. and Mrs. E. M. Cornell.

Flora Sparks and wife of Licking Chapel called on Mr. and Mrs. Newt Shultz Sunday.

W. H. Mitchell who has been ill, is no better at this writing.

Arthur Mitchell of Mt. Vernon visited here Saturday and Sunday.

Mr. and Mrs. Clint Dustin attended the Geerhart reunion held New Year's day at the home of P. N. Dustin at Centerville.

## Coughs and Colds

Early presented and cured by Duffy's Pure Malt Whiskey

It's the little cough or cold allowed to run on without attention that fills three-fourths of the graveyards of this country.

Consumption is but the fatal stage of these troubles—the little cough neglected.

Consumption is more appalling in its destruction of life than any plague or pestilence that has swept over the world. It works on, day and night, year in and year out.

Duffy's Pure Malt Whiskey is prescribed by doctors everywhere. It is an absolutely pure, gentle and invigorating stimulant and tonic. It overcomes all weakening, wasting and run-down conditions of the body, brain and muscle, giving the system power to throw off and resist coughs, colds, grip, catarrh, bronchitis and lung troubles; it is an absolute cure and preventive of consumption, pneumonia, bronchitis, malaria and low fevers if taken in time in small doses as directed.

All druggists, grocers and dealers, or direct, \$1.00 a large bottle. Be sure you get the genuine; substitutes and imitations are injurious. Medical bottles containing rare common sense doctor's health and testimonials, also doctor's advice sent free to anyone who writes. Duffy's Pure Malt Whiskey Co., Rochester, N. Y.

## STATUE OF LEE THAT AROUSED ANGER OF G. A. R.

This is a photograph of the statue of General Robert E. Lee which has been placed in statutory hall in the capitol at Washington and which aroused a storm of indignation from veterans of the Grand Army of the Republic in many parts of the country. Each

is a false economy. Carelessness in handling pigs is a bad habit to acquire. Even on cold days hogs should have plenty of good fresh air. The idea that anything is good enough for a pig is a mistaken one. Some corn-stalks may be fed to the porkers every day. They are sweet and do the hogs good. Some farmers sell their corn shelled, and others dispose of it in the ear, but western farmers find it most profitable to sell it in the hog.

Nowadays draft horses must be matched to sell well. Choose for the breeding mare a solid color—dark bay, black or chestnut.

In countries where colts run out the year around, the mature horses have much stronger legs. Horses of color and with peculiar markings never sell so well as those of solid colors; besides they are more difficult to match.

Look out for bad habits in your colts. It is much easier to keep them out than it is to get rid of them if they once get a hold on the young horse.

All good farmers watch the condition of their colts when put into winter quarters. A colt allowed to lose its coat flesh and become thin, will never make the horse he would if kept growing from the start.

The best feeds are clover hay, a mixture of oats, wheat bran, linseed meal and roots. The sheep barn must be dry and well ventilated. Foul odors and too much heat bring on pneumonia. All straw stalks, etc., used for litter in the sheep barn should be run through a cutter to increase the power of absorption.

A juicy wetter hung up in a cold, dry place will provide choice dinner for the family until it is used up. Don't forget to have mashed turnips and butter with it.

That nice ewe is just as nice for you to keep as she is for the man who likes the look of her to buy. Unless you are overstocked, keep her; and if you are, better sell some other sheep.

A good rack for feeding sheep can be made by almost any sensible farmer. About all that is needed is a support for the hay so that it shall not fall to the ground and be wasted and also be handy for the sheep to get at.

A temper under control is an invaluable asset to a man employed in handling cows. Warmth is half the feed for cows, and remember that foul air does not keep an animal warm.

Every cow should be brushed thoroughly each day. Keeping the skin clean and active is conducive to health.

Make up your mind that you will not let the calves get stunted this winter. Keep them growing. They will be better cows, and better cows are what we are all working for.

It is much better and cleaner not to wipe dairy utensils with a cloth, no matter how white it may be. If the cleansing water is plentiful and hot, the vessels try much more healthful without wiping.

There is no danger of overstocking the dairy cow market so long as the systematic robbing of the herds by the disposal of the calves continues. We on cows sell for from \$50 to \$70 at public sales; it seems like colts to hussy off the calves for a few dollars a head.

Miss Estar Egan of Glenford was a guest of her cousin, Miss Ethel Egan, last week.

## HINTS FOR STOCK OWNERS

Never feed corn alone to hogs. It is a false economy. Carelessness in handling pigs is a bad habit to acquire. Even on cold days hogs should have plenty of good fresh air. **No Cough**  
Have not coughed once all day? Yet you may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine right at hand.

He was adjudged insane.

**Business Man Suffered Agony—Head, Neck and Shoulders Covered—Became An Object of Dread—Consulted Most Able Doctors and Hospital but Got No Relief.**

**SURPRISINGLY QUICK CURE BY CUTICURA**

"Cuticura did wonders for me. For twenty-five years I suffered from a terrible humor, completely covering my head, neck and shoulders, so that I could not go to my friends, and even to my wife. I became an object of dread. At large expense I consulted most able doctors, far and near. Their treatment was of no avail, nor was that of the Hospital, during six months' efforts. I suffered on and concluded there was no help for me this side of the grave. Then I heard of some one who had been cured by Cuticura Remedies and thought that a trial could do no harm. In a surprisingly short time I was completely cured. S. P. Keyes, 147 Congress St., Boston, Mass., Oct. 12, 1909."

**CURED BOILS**  
With Cuticura When Everything Else Had Failed.  
"I am very grateful for Cuticura as my daughter had been suffering for eleven months with awful great boils on her body. We tried everything which one could envision but nothing was good. The boils made her very weak and ill and she had to leave her place. After using one tablet of Cuticura Soap, one box of Cuticura Ointment, two vials of Cuticura Pills and three bottles of Cuticura Resolvent she got quite well and has not had the boils since. I should have written to you before but have been waiting to see if she had any sign of any coming back. My daughter is eighteen years old. Mrs. Ellen Heather, Hillsdale Rd., Ash Common, nr. Aldershot, Hants, England, June 29, 1909."

## HEALTH CRANKS AND FOOD FADDISTS

Have Evolved Some Strange and Wonderful Theories Concerning Stomach Treatment.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

Within the last 20 years there has sprung into existence theories by the score relative to the kinds of food that human beings should eat, and should avoid. With the tremendous increase in nervous and stomach diseases which are caused by the strenuous life of this neurotic, neurasthenic age in which we live, we are constantly having our attention called to some food faddist "new idea" on the subject of alimentation.

Most prominent among these theories is the vegetarian who insists that meat was never intended for the human stomach, despite the fact that his ancestors for 6,000 years or more, used it as their principal article of diet; and the old patriarchs of Biblical History who lived to prodigious old ages, were meat eaters. All of the great nations of history have been users of meat, and all of the most powerful and advanced countries of today employ it extensively in their dietaries, and their superior development and high degree of civilization are in strong and striking contrast to the decadent and degenerate nations of Asia and the tropics, whose inhabitants are vegetarians.

Another fallacy which has lately become a fad, is the so-called "low-proteid" diet. Now, the foods which are rich in proteids are the ones which build up nerve, brain, muscle and blood, so that any great reduction in the amount of proteid used simply means starvation for the most important centers of the system—the ones on which we depend the most to enable us to successfully fight the battles of life. Those nations whose people use foods containing but little proteid, are never of large frame or well built. The Japanese, who have always been small of stature, have, since adopting a more liberal proteid diet, shown a remarkable increase in size, vigor and general development; and it is only since Japan became a meat-eating nation that it has developed into a world-power.

Still another theory lately advanced is that sugar, pepper and salt are gastric irritants and irritate the mucous membrane of the stomach, although it is known that sugar possesses a high caloric value, while pepper and salt assist digestion rather than interfere with it, as is claimed. The no-breakfast plan, the two-meal per day, and even the one meal daily have been advocated, while some advise a two or three weeks' fast, during which all food is withheld from the stomach "to give it a rest," completely ignoring the fact that the system's tissues are being constantly torn down and cast off, and new material to rebuild them must be supplied from the food.

It is utter nonsense to concern one's self about all these absurd and illogical theories, as life is entirely too short, and there are other things requiring our attention. Eat what you want when you want it, and as much as the system needs to replenish its waste, and then take one or two of Stuart's Dyspepsia Tablets, and forget all about food fads and stomach troubles. They digest all kinds of food so thoroughly you won't know you have a stomach. They are powerful digestors of every kind of food though harmless to the system, and may be taken at any time and in any quantity. Get a box from your druggist for 50c, and send us your name and address for free sample. Address, F. A. Stuart Co., 150 Stuart Bldg., Marshall, Michigan.

## OHIO STATE POULTRY SHOW AT COLUMBUS

Those who demurred to Christmas turkey at 30c a pound, should consider the ways of the blooded chicken, how he toils not, neither does he spin, yet the turkey, in all his pulchritude, was not worth a tithe of him. The old adage of the aristocrat, that "blood will tell," seems to apply with particular force in regard to chickens that can, by any deduction be called "blooded." This has been made apparent by an estimate of the value of the fowls to be exhibited at the coming show of the Ohio State Poultry Association company, which will be held at the Goodale street auditorium in Columbus January 10 to 18, inclusive. According to the present outlook there will be at least 1,000 birds shown. The estimated value of this aggregation is \$25,000 and 10 lbs. would be a fair average for the weight of the birds, so that there will be something like five tons of chickens, or 10,000 lbs., at the staggering rate of \$2.50 a pound.

Nor is this extraordinary value confined to their bodies alone, as the price of eggs ranges from \$3 a dozen upward. It is hardly necessary to add that these eggs seldom find their way into cake, or the chickens to pot-pie. Some of the chickens, as for instance, the King Edward of W. E. Hagne, just imported from England, is held at \$100, while Plymouth Rock, a three-year-old cock, that has half a dozen prizes to his credit, that is held at \$75. The housewife who was expected to prepare a three-year-old fowl for the table would doubtless feel her task a very difficult one. C. L. Stiles has a number of Mottled Anconas which he will show and which he feels sure will be inside some of the money. In addition to the list of prizes already announced there has been added within the week, one more valuable than all the rest. It is a silver loving cup, valued at \$150, and purchased by subscriptions among the students of the agricultural college at O. R. T. It is to go to the best general display at the exhibition and must be won twice by the same per-

son to become his permanent property. This is considered an important feature in promoting interest in future exhibitions. This prize does not include any others and it may well happen that some particularly fortunate pen of fowls will pull down prizes of an aggregate value of a couple hundred dollars, so that even at a cost price of \$100 their earning power makes them a profitable investment.

But it is not the business end so much as the fancier, the faddist who adds zest and interest to exhibitions. Men in the country raise chickens for profit, but there are many men in the city who raise them for the fascination they find in the occupation. Some of the best known business men in the city are connected with the Ohio State Poultry Association company, which has been incorporated under the laws of Ohio, and much of its capital stock has already been subscribed and paid into the treasury. It is not a Columbus organization as some have imagined, but it has members all over the state. It has adopted as its motto for this and subsequent exhibitions, "Where winning will be worth while." Practically every cent of the entry fees will be returned to the exhibitors in the shape of cash prizes.

## COAL

FAMINE EXISTS ALONG MILWAUKEE ROAD AT ALL COALING STATIONS.

Railways Take Radical Steps Today in Preparation for a General Strike.

Minneapolis, Jan. 5.—The Milwaukee road today posted a bulletin informing conductors of the shortage of company coal at all coaling stations, and a shortage of commercial coal at many places. Instructions were given that coal must be handled in preference to everything except live stock and perishable freight.

Some Minneapolis dealers are still awaiting shipments of Christmas trees and switchmen in the Twin Cities say the roads are doing 18 per cent of the normal freight business. Mayors, city councils and commercial bodies are sending in complaints to Commissioner Knapp at Washington, and the inquiry sessions will be resumed there today.

The railroads took radical steps today, evidently in preparation for a general strike, and ordered heads of departments who have been helping in the yards at the Twin Cities back to their regular positions.

"When mankind was simple, plain, frugal and honest there were few or no nervous diseases. Temperance, exercise, labor and industry kept the juices sweet and the solids braced. Most disorders happen to the rich, lazy and too well protected."

The shoemaker may not be an expert on affluities, but he has to know all about sole mates.

For a mild, easy action of the bowels, a single dose of Doan's Regulets is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

## DISTRESS IN STOMACH AND DYSPEPSIA GO

Indigestion, Heartburn, Gas or Headache Vanishes Five Minutes After Taking Some Diapiesin.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and Eructate sour, undigested food or have a feeling of Dizziness, Heartburn, Fullness, Nausea, Bad taste in mouth and stomach headache—this is Indigestion.

A full case of Diapiesin costs only 50 cents, and will thoroughly cure your out-of-order stomach and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why Dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapiesin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for Biliousness or Constipation.

This city will have many Diapiesin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for Indigestion or Gastritis or any other Stomach misery.

Get some now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

## AMUSEMENTS

KEITH STOCK CO.

According to general conditions Tuesday evening seems to be somewhat of an "off night" in the way of attendance during a weeks production, but last night was contrary to the usual run of things, and the Keith stock company played to a very fair sized house, and they deserve it too, for better work or a more evenly balanced company playing a week's engagement in repertoire has never been seen here.

"It's Never Too Late to Mend" was the production of last night, and it abounded in good situations and a great deal of comedy, in fact in all the shows presented so far, comedy plays a prominent part, and leading in these roles is the Keith, who is assisted by the Kelly last night, made it a scream on their every appearance.

Misses Helen Leese and Ruth Amos were as petite and charming as ever, and the former by her "kidding" those who occupy the front row goes big, and Miss Amos has a very nice voice.

Misses Bessie Warren and Edesee Fowler are actresses of ability, and are very nice looking. Mr. Baldwin made the same delinquent hero as ever, and carries even his most difficult lines with a graceful ease.

Edward Mokelle did nice work as the aged merchant, and Lawrence Martelle and Nelson Lawrence were the impressive villains.

The offering tonight will be the "Great Obscure Mystery," and indications are for another "big night."

ORPHEUM THEATRE.

An exceptionally good show is that offered at the Orpheum for the last time tonight, and those who have not had the opportunity of witnessing it should not fail to take advantage of tonight, and be present.

The show opens with a rube act put on by Lyall and Raeburn and Lyall is an unsophisticated rube, with a good bit of talk, and the lady of the team supports him well, and the act closes with that good time song, "Morning Cy."

Billy Burns is really good enough to have his name on the program, but through somebody or other's fault it doesn't appear, and Billy just bobs out, and gives his spell like the good entertainer he is, in fact he makes all of us his friend.

A very clever little sketch is that offered by Nick and Lida Russell, under the title of "The Professor and the Substitute," and really the professor "is there" having a nice little talk in woeeful mixture of German and English, that goes big with the audience.

He gives some stunts on the piano, the feature of which is the rendition of "The Holy City," a sacred song in which time, march time and rag time are combined in a pleasing voice, and her "Whistle If You Want Me Dear" is a winner.

The headliner is the Mexican Marimba band, whose selections are of a high class, and whose work is very pleasing. There have been many musical acts this season, but this one is somewhat of a novelty.

Some of the horrors of the Cherry Mine Disaster are depicted in the motion pictures, and the films are very good.

## WATER WORKS PROBE

(Continued from Page 1.)

There was no truth in this charge and I never was in favor of purchasing the old plant. L. K. Davis was engineer at the time, and we found that he was permitting work to go on that was not according to specifications, and we filed charges against him of incompetency, inferior conduct, was vexatious, and I found that much cracked and broken pipe was lying on the streets, to which I called the attention of Mr. Darnell, who was Davis' personal representative. We charged Davis also with changing the plans. Just previous to going into office, Davis came to my place of business and requested an interview with me. I made an appointment, and Mr. Davis could not be here, and sent Mr. Darnell to me as his representative. We met at the Warden Hotel. Darnell said that the plans did not call for a reservoir, and that Davis thought one ought to be installed. I told Darnell that there were some very ugly rumors about Davis, and he said there was some truth in them. He said that Davis was perfectly willing to do the work as the Board wanted it, either "erected or straight."

"I told him that I didn't believe Davis could do straight work and that it would have to be if I had anything to do with it. Davis said he came to me because it was said that I would take a leading part in the construction of the water works."

"I did not trust Davis and began to probe and investigate. About this time supply men began coming in and telling us about Davis. The other members of the Board assisted in the investigation. I was opposed to retaining Davis as engineer, but did not then file charges against him. After conferring in excess of the solicitor if we could legally get rid of Davis, and showed the charges to the solicitor. It then was made a part of the record of the Board. The members were unanimous in their desire to get rid of Davis. I was not at all reluctant about filing the charges."

"On Jan. 20 the charges of unskillfulness on all parts of work done at pumping station, incorrect estimate of excavation at pumping station, changing plans for building after contract was let; that concrete was dropped from 1 to 21 feet in violation of contract, and that concrete was put in molds so wet that it was impossible to tamp it, that he was derelict in not employing contract with American Light and Water company—allowing estimates in excess of the contract schedules; changing plans for power house without authority; allowing inferior water pipes; making estimates of extra work and receiving pay for it in violation of contract; not furnishing affidavits with reports of inspections."

"On motion of Taylor seconded by McVeigh, it was decided to ask for

opinion from solicitor if we could discharge Davis.

"We determined that Davis had made false estimates of actual amount of excavation; got our information from City Engineer Wells; we found that Davis had charged for making a cut and fill thus being paid twice for moving the dirt once; don't know whether these amounts we deducted in the final estimate."

"The witness showed blue prints, and explained how Davis had altered the plans under the contract of August 17, 1925, for the pumping station foundation. He stated that Davis had worked along plans drawn October 13, 1924, which did not call for as great a depth of foundation, or as good concrete work as under the plans drawn August 29, according to contract."

"Under the changed plans the cost of the plant would have been materially increased. Estimates of quantity of concrete work, and amount of material were approximate, and Davis' estimates were unreasonable increases."

"After contract was let Davis changed plans, putting pumping room beneath the boiler room, increasing cost greatly."

"Before going into office I frequently visited the site and saw concrete put in, that was not up to standard. I had made a study of concrete and thought that put in was entirely too wet. I would not say I was an expert on concrete work, but had made inquiries of cement men, and was qualified to say that the concrete was too wet. We had employed a water works engineer named W. P. Mason, and sent him to investigate the concrete work. I would say that the concrete work now finished at the plant, looks to be all right, but it was done under a different method."

"Under the contract I thought Davis would be on the work most of the time. We afterward entered into a contract with Riggs & Sherman, but did not require them to be personally on the work of supervise it. Davis, during January was only here once. The weather was such that very little work could be done. Davis only met with the Board, I think, once, about the middle of January."

"Davis did not remove rejected and damaged material from the pumping station site as required by the provisions of the contract, section 14, which directs that this shall be done 24 hours after notice to the contractor by the engineer."

"Davis also allowed estimates on material not in accordance with specifications in the contract; a large quantity of pipe for the distribution system was inferior and defective. The hammer test was the only one used on the pipes before they were put into the ground when they were tested for strength; I understood that they were submitted to hydrostatic test at the foundry before being shipped to Newark. The Board finally accepted the pipe as they were on the ground Dec. 31, 1925, except a few pieces."

"On some of the pipe, the bell flanges were larger than specified, requiring the use of more lead than the contract called for, to which the contractor objected, and I don't know whether this made any difference in the final settlement as I was not then a member of the Board."

## INVESTIGATION

Of Ballinger-Pinchot Controversy Will Be Set Under Way Immediately.

Washington, Jan. 5.—The administration for a congressional investigation of the Ballinger-Pinchot controversy was introduced simultaneously in the Senate and the House today.

Senator Jones, (Washington) presented the resolution in the upper house, and Representative Humphrey, (Washington) in the lower. Both congressmen are from Secretary Ballinger's state. In the senate the resolution was referred to the committee on public lands, and in the house to the committee on rules. It is understood these committees will both report the resolution back to their respective houses without delay in order that the investigation can be set under way immediately.

The resolution is sweeping in character, and calls for a thorough investigation of every bureau of the interior department and the forestry service. The investigating committee is to consist of twelve members, six appointed by the vice-president and six by the speaker.

ZANESVILLE  
BOYS LOST  
IN BLIZZARD

Zanesville, O., Jan. 3.—Word has been received from Washington state giving the particulars of a thrilling experience of three Zanesville boys in a blinding blizzard in the heart of the wild mountains of that state. Walter and Otto Elwell and Ray Hanning were members of a forest survey party, and they were lost in the blizzard for four days, part of that time being without food. The boys had been working in the mountains for several weeks, and one day a big snow storm caught them while they were some distance from camp. In all its fury the mountain storm swept down upon them, and it was practically impossible to see further ahead than a few feet. The falling snow obliterated all landmarks, and after some hours the members of the party finally had it impressed upon them that they were lost. After four days the storm spent its fury and the boys soon got their bearings and were able to get to camp.

DIVIDENDS

Will Be Paid Every Two Months by Otsego Oil & Gas Company at Zanesville.

Zanesville, O., Jan. 3.—At the annual meeting of the Otsego Oil and Gas company, held in Zanesville, the directors declared a dividend of \$250,000, payable on the 1st of May. At six months a 10 percent dividend of \$5,000 every two months would be paid until next summer, when the price of oil would be expected to rise. The company has a present low price of oil, and it is expected that the price will rise in the near future. This means that by next summer the oil company, which is the largest in the state, will have paid out \$100,000 in dividends. The company also paid yesterday \$250,000 of the total dividend of \$500,000, a dividend which has been paid in November.
